A3 Long-Term Deposit Ratings by Moody's

Category	Moody's Rating
Outlook	Stable
Counterparty Risk Rating	A2/P-1
Bank Deposits	A3/P-2
Baseline Credit Assessment	baa2
Adjusted Baseline Credit Assessment	baa2
Counterparty Risk Assessment	A2(cr)/P-1(cr)

Credit Strengths

- Long and solid track record
- Diversified earnings from banking, investment and wealth management services
- Improving profitability
- Low reliance on market funding

On March 15, 2024, Moody's Ratings assigned first time long- and short-term deposit ratings to Bank of Åland

- "The A3 long-term deposit ratings reflect Bank of Åland's strong private banking franchise in Finland and Sweden, reflected in the baa2 BCA, and two notches of uplift due to the large volumes of junior depositors sharing losses in the case of a failure"
- "Bank of Åland's capitalisation is strong with a tangible common equity to risk weighted assets of 16.2% at end of December 2023, up from 13.9% at the end of 2022, largely due to the transfer of SEK 5.8 billion of Swedish mortgages to Borgo in September 2023"
- "Bank of Åland has diversified revenue streams due to its strategic diversification, both geographically and across product lines, with higher interest rates supporting strong profitability"
- "The stable outlook on the long-term deposit ratings reflects Moody's view that during the coming 12 to 18 months, Bank of Åland's fundamentals will remain strong, with limited deterioration in asset quality, a slight strengthening in capitalisation as Swedish mortgages are transferred to Borgo, and a stable profitability while funding structure and liquidity improve moderately"
